CE (India)

CE (India) As structure and operations will provide for full representation of its diverse membership. It is in the business of supporting organizations and their members to become more relevant to the public and the industry they serve. CE (India) has established a website for the promulgation of valuation and related counseling information. As part of the move to encourage greater cooperation and a minimum standard of tertiary education for property professionals worldwide, a Memorandum of Understanding for Recognition of Designations was signed by CE (India) members, namely, IFEO, IIV India.

CE (India) will continue:

- To support the consistent application of valuation standards and methodologies, set criteria for educational standards and to work to improve educational and training opportunities.
- To establish core competencies and skill sets for members and assist member organisations in providing education-training courses.
- To facilitate the portability of qualifications by establishing a platform for the seamless transportability of professional valuation qualifications globally.
- To work with and support IIV, and develop education modules for the adoption and implementation of International Valuation Standards.
- To obtain recognition and support from the World Bank, the United Nations and other world organizations committed to the CE (India) objectives and principles.

We invite you to complete the attached membership application and join your peers in providing leadership and developing the future of the valuation and related counseling profession.

Sincerely

Dr. Amin Shaikh
Chief Executive Officer

Our Mission.....

To develop and enhance the valuation and related professions, and to ensure the provision of services of consistently high quality and uniformity in the public interest.

CE (India) will carry out its mission by promoting best practices, supporting robust and consistent standards, encouraging higher education, and facilitating lifelong learning among its Members and their members.

Strategic Goals

MEMBERSHIPS

We recruit, evaluate, appoint and retain Student Members, Individual, Associate, Fellow, Corporate, Institutional, Corporate and seek and appoint Sponsors.

MEMBER SERVICES

We work with Members to provide them with a range of services that can only be or are better provided by CE (India).

SERVICES TO TRANSITIONAL AND DEVELOPING COUNTRIES

We help to build the valuation capacity of developing countries and countries in transition and, in partnership with others, help provide appropriate real property infrastructure.

PROFESSIONALISATION

We work with Members to develop the standards and common requirements for an international valuation profession, facilitate harmonization, and improve the portability of professional designations.

RELATIONSHIPS

We enter actively into mutually beneficial strategic partnerships, alliances and networking relationships with other appropriate organizations.

PUBLIC ADVOCACY AND INFORMATION

Through which we represent our Members and the international valuation community more generally in advancing the understanding and acceptance of property valuation as a profession and of the services our Members offer.

CE (India) CORPORATE AFFAIRS

We manage our own internal affairs effectively, efficiently and economically, giving full value for the resources we use and working sensitively and with integrity in our human relationships.

Membership.....

Members

CE (India)s structure and operations will provide for full representation of its diverse membership. It is in the business of supporting organizations and their members to become more relevant to the public and the industry they serve.

CE (India) has established a website for the promulgation of valuation and related counseling information.

The Institute of Fire and Safety Management	: Certified Fire and Safety Management Consultant

Copyrights of Course Materials

The copyrights to the training course materials will determine the amount of commission fees payable to CE (India). If the copyrights remain with the trainer or training organization, a higher fee will be payable to CE (India). Should the trainers or training organizations wish to let CE (India) have copyrights to the course materials, CE (India) will agree to allow the trainer or training organization an exclusive right to conduct the training courses for a period of three years subject to a review of performance. CE (India) will have the rights to assign other trainers, if required, after the three years have expired. CE (India) may, of, course continue with the original trainer. Trainers who conduct courses on behalf of CE (India) will be paid a remuneration to be worked out between the trainer and CE (India).

Marketing and Preparation of Courses

All approved Courses will be marketed by CE (India) through its network and website. All enquiries will be directed to CE (India) which will liaise with the trainers or training organizations should a confirmed request is made.

The course materials will be printed and paid for by the trainer or training organization subject to the condition that the front cover of the course materials should be as prescribed by CE (India) (a copy can be obtained from CE (India) upon approval). A copy of the course materials should be lodged with CE (India) for retention. Alternatively, CE (India) can print the course materials and charge it to the trainer or training organization (prior arrangement has to be made).

For courses which are conducted overseas, prior arrangement will have to be made between the trainer or training organization and the requester for the training. CE (India) will not be involved with details of the flight and accommodation arrangements provided they are reasonable.

Conclusion

The purpose of this guideline is facilitate the preparation of training courses for member organizations of CE (India) as well as those who are presently not qualified to join CE (India) as full members because of the lack of adequate qualification and skills in valuation. These persons may have varied degree of expertise and knowledge of valuation.

It is hoped that this guideline will encourage qualified trainers and training organizations to submit their courses for endorsement by CE (India). The CE (India) Education Committee hopes to endorse at least 20 such courses each year. In order to encourage the submission of courses, the administrative fee will be reduced to INR 1500.00 if the successful application is made before 31 December each year.

For courses which are conducted overseas, prior arrangement will have to be made between the trainer or training organization and the requester for the training. CE (India) will not be involved with details of the flight and accommodation arrangements provided they are reasonable.

Engineering Specialization:

•Automobile Engineering •Aeronautical Engineering •Aircraft Maintenance Engineering
•Air-condition and Refrigeration Engineering •Architectural Engineering •Civil Engineering
•Computer Engineering •Electrical Engineering •Electronics Engineering
•Electronics and Telecommunication Engineering •Fabrication Technology •Industrial Engineering
•Industrial Engineering and Management •Industrial and Production Engineering •Mechanical Engineering
•Marine Engineering •Machine Tool Engineering •Manufacturing Engineering •Production Engineering
•Production Technology •Robotics Engineering •Tool and Die Engg •Welding Technology •Plastic Technology, etc.

Introduction:

would like to established a Center for Confederation of Engineers (India) in the world of Assets. Role of Confederation of Engineers (India) in various industries that have a great impact on economy. CE (India) takes on the role of developing, promoting the standards of Appraising the Assets CE (India) operates Globally.

Aims and Objectives:

CE (India) seeks to bring together individuals, and institutions and Govt . Agencies & Industries and Education to evolve and develop Chartered Engineer and Appraiser practices in World. Apart from upgrading the professional skills of its members.

CE (India) also aims at the following:

- To spread the benefits of Engineering Education to the less privileged.
- To advance the status and roles of engineering practice.
- To facilitate interaction between members of Engineering Societies throughout the world.
- To represent the opinion of Members of the society, on matters related to the objects of society.
- To promote the value of Chartered Engineer and Appraiser and its applications.
- Promoting continuing education and training.(CPD)

Why to join:

CE (India) is your Gateways in assisting to get the so many Professional Memberships in the World. CE (India) shall the most relevant Professional Organization from all those working in the field of Engineering and Technology Appraisal both in the private and public sector who wish to share their practical experience and improve their art and skills for the benefits of themselves in their career development and for the wider benefit of various disciplines of engineering. So it is essential for engineering professional to apply for membership to upgrade their technical status.

CE (India) Commitments to professionals:

Engineering is a rewarding fulfilling career. CE (India) commitment is to provide update resources and a highly developed structure that will enable our members to meet the complex challenges of the modern world. Membership is a solid evidence of an individual's commitment for enhancing his or her technical knowledge, practical skills and exposure.

CE (India) Network:

CE (India) is a growing network of Professional Organization having World-wide link to update technical knowledge for their members.

Publications

The Education Committee of CE (India) would like to compile a book entitled Valuation Practice in the Global Economy describing the valuation practice in various parts of the world. It hopes to get the book published in due course. **We would like to invite senior practitioners (including academics) to contribute a paper relating to your country.**

Publication Guide Content of Each Chapter

The paper should highlight the following information in each country. The length of the paper should be 5,000 to 8,000 words (single line).

- Background to Country eg size, population and economy
- Institutional Framework eg property rights, land use and planning, controls
- Characteristics of the Property Markets eg submarkets, rental market, trends and state
- The Property Profession eg education and training, professional body
- Valuation Practice eg private and public sectors, methods of valuation, types of valuation, valuation standards
- Control over Valuation activities eg licensing, code of ethics, tribunals and courts
- Other relevant topics

Indication of Interest

This invitation is extended to anyone who is interested to contribute. The name of the contributor will be indicated in each chapter. In addition, all contributors will receive two copies of the published book. Anyone who is interested should write in with the following information:

- Name(s) of author(s)
- Designation or affiliation
- Brief background of experience and training
- Email address (or other contacts)

In the event of multiple interests, the selection of the final contributor for the country paper will be made by the Education Committee.

Please contact the Secretariat at info@ceindia.org if you need advice from our panel of experts.
